

RSR Accessories

Rollin' Job Kart

The Rollin' Job Kart provides a place for everything necessary for a particular job. You can organize all the screens, ink, squeegees, spray tack, wipes, etc. in one convenient place. This will help organize your shop and keep it cleaner and more productive.

The Rollin' Job Kart features adjustable width, easily accommodating screens of varying widths. The 31" deep shelf can support any length screen. The work top easily accommodates all the supplies for a job.

Racker Cover

The Cover protects five sides from light and dust. Two zippers open one side allowing access to the screens. This accommodates screens ready for exposure.

The Cover open/closed

The Accommodator

The Accommodator is a half high insert that easily fits in a Rollin' Screen Racker. This allows two different screen sizes to be stored.

The increased versatility further protects your investment. As your production needs change the Racker can easily adapt to these changes.
