

PERFETTO

Perfetto White has been specifically designed to print on polyester, but it's also able to express its **full potential on every other kind of fabric.**

In case of garment dye migration, we recommend to print a VIRUS NO SUBLIMATION BASE as under-base that not only assures an excellent elasticity, but even improves the print durability and gives a smoother finish to the print.

PERFETTO also assures an extraordinary resistance to washing and crocking tests, proving to be more resistant than what is required by the most severe standards.

PERFETTO WHITE

technical sheet

| COLOUR 1 - RECIPE | | RATIO | SCREEN | COLOUR 2 - RECIPE | | RATIO | SCREEN |
|--------------------|---------------|--------------------|-----------------------------|---|--|-------|-----------------|
| NO-SUBLIMATION | | 97 | 48/123 | PERFETTO WHITE | | 100 | 48/123 |
| HYDRACRYL RETARDER | | 3 | GEL 3 | | | | GEL 3 |
